

Precision Health Solutions

## **Co-Founder & Chief Executive Officer**

### **Walt Cooper**

Mr. Walt Cooper is the Chief Executive Officer of Precision Health Solutions. He provides the strategic vision, leadership, and organizational guidance that drives the company's growth and service expansion. He is also the Chairman of the Board and Chief Executive Officer of Sozos Health Care and a shareholder of Rx4Life. Both Companies are involved in Pharmacogenomics and personalized medicine.

Prior to joining PHS, Mr. Cooper served as President and CEO of Matrix Medical Networks in Scottsdale, Arizona from 2013 to 2019. Under Walt's leadership, Matrix has been bought and sold numerous times in his 6 years as the leader. Matrix is currently privately owned. Walt expanded the Matrix business into new solutions and markets. Building on the company's leading in-home and mobile services platform, Matrix enjoys the market leader position in the industry and provides a series of in-home care and ongoing support services that impact and improve the care of more than 3,000 health plan members every day.

Prior to joining Matrix, Mr. Cooper served as a top executive at WellCare Health Plans, a \$9.5 billion multi-state leader in Medicare and Medicaid programs. While at WellCare, Mr. Cooper served as the Chief Administrative Officer and was responsible for the \$1.5 billion Medicare Part D and Specialty Pharmacy business. He also led all transaction processing including healthcare delivery, operations, IT, PMO, quality, and analytics.

Prior to WellCare, Mr. Cooper held several senior leadership positions at UnitedHealth Group. While at there, he developed the go-to market strategy and led marketing and ancillary product development for the specialized care services business segment. In addition, he also supported specialized health products for the retiree solutions and senior market business segments.

Mr. Cooper also held positions of increasing responsibility that included international assignments focused on business development, manufacturing, and sales and marketing, in Canada and Mexico. He earned both his MBA and Bachelor of Mechanical Engineering degrees from Gannon University in Erie, Pennsylvania.
